

How will **Trumba Connect** benefit my organization?

Trumba Connect Benefits

Customer Quote

"We knew that the best solution was to take an existing application platform, one that was hosted, involved minimal set up and maintenance, and could be deployed quickly.

Trumba met all those requirements and more."

— Brian Trautman

CEO, Personify Design, Inc.

Benefits

Features

Highly customizable

- Customize the appearance and behavior of calendars and other event and email widgets
- Create all the custom fields and event types that your organization needs
- Delegate calendar maintenance to other account holders with full control over permissions

Easy to configure and deploy

- Leave software maintenance and updates to us by subscribing to our secure, web-hosted application
- Import existing event data in any of the common formats
- Set up, and then leave event maintenance to the non-technical people
- Copy and paste simple JavaScript™ calls to embed calendars and other interactive widgets into your website
- Use parameters to display or link to a specific calendar view
- Track calendar activity with built-in reporting

Rich feature set

- Provide interactive event widgets that allow site visitors to add events to their personal calendars, subscribe to calendar emails, and more
- Use our robust email engine to send upcoming events to a distribution list
- Allow open event registration or send invitations to a distribution list

Secure and reliable

- Feel secure knowing that we host your event information in a state-of-the-art, seismically-reinforced Internap® data center facility
- Rely on our hardware and software redundancy that ensures that Trumba® Connect will be there when you need it
